SUBJECT AND AUTHOR INDEX FOR VOLUME 18, 1986

Acetylene reduction, 171–179, 181–187
Acid precipitation: Effect on alpine soil bacteria, 269–275
Alaska: Bioenergetics of Lapland longspur, 415–427; Great Kobuk Sand Dunes, 377–387; Lichenometric study, 289–296; Permafrost terrain, 1–17; Pollen, vegetation and climate, 57–72; Tussock tundra, 261–268
Alectoria: Lichenometric studies, 289–296
Alpine: Ballooning spiders, 415–427; Blowing snow, 147–161; Geosystem model, 133–146; Insects, 253–257; Mammals, 111–119; Plant communities, 83–96, 97–110; Radiation balance, 163–169; Soils, 327–336; Soil bacteria, 269–275; Tropics, 253–257
Andean paramos, 253–257
Andrews, J. T., Mothersill, J. S., and Tabrez, A. R. (Paleomagnetic record, texture, and mineralogy of late Quaternary sediments, Baffin Island fiords, N.W.T., Canada), 361–376
Andrews, J. T. *See also* Short, S. K., et al.
Aniya, M. and Enomoto, H. (Glacier variations and their causes in the northern Patagonian Icefield, Chile, since 1944), 307–316
Araneidae, 415–427
Archaeology: Use of lichenometry, 297–306
Arctic: Bioenergetics of Lapland longspur, 415–427; Disturbance, 1–17; Eolian activity, 389–396; Evaporation, 195–200; Glaciation level, 217–222, 407–414; Ice shelves, 397–405; Lichenometric study, 289–296; Paleomagnetic records, 361–376; Plants, 73–82, 181–187; Soil development, 33–43, 327–336; Tussock tundra, 261–286
Arctic-alpine soils, 327–336
Arthropod fallout, 415–427
Ashwell, I. Y. (Meteorology and duststorms in central Iceland), 223–234
Aubin, A., Boisvert, J., and Charpentier, G. (Bacterial communities in shallow aquatic habitats of Poste-de-la-Baleine (Kuujjuarapik) region, Quebec, Canada), 235–238

Bacteria: Aquatic habitats, 235–238
Baffin Island: Fiord sediments, 361–376; Soil development, 33–43; Tidewater glacier sediments, 45–56
Ballooning spiders, 415–427
Beets, D. J. *See* Riezebos, P. A., et al.
Beluga whales: Feeding behavior, 439
Benedict, J. B., Benedict, R. J., and Sanville, D. (Arapaho Rock Glacier, Front Range, Colorado, U.S.A.: a 25-year resurvey), 349–352
Benedict, R. J. *See* Benedict, J. B., et al.
Berg, N. H. (Blowing snow at a Colorado alpine site: measurements and implications), 147–161
Bergqvist, K. I. *See* Broadbent, N. D. and Bergqvist, K. I.
Bioenergetics of Lapland longspur, 415–427
Biomass in tussock tundra, 261–268
Blowing snow, 147–161
Bock, J. H. and Nakhutsrishwili, G. (International symposium on high mountain ecology, Tbilisi-Kazbegi, Georgia, USSR), 121–122
Boisvert, J. *See* Aubin, A., et al.
Book Reviews
The ABC of Avalanche Safety, 2nd ed. E. R. LaChapelle, 247
Airphoto Interpretation and the Canadian Landscape. J. D. Mollard and J. R. Janes. *J. T. Andrews,* 246
Arapaho Pass: Glacial Geology and Archeology at the Crest of the Colorado Front Range. J. B. Benedict. *V. T. Holliday,* 241–242
Archaeological Sediments in Context. J. K. Stein and W. R. Farrand. *J. B. Benedict,* 125–126
Arctic and Alpine Fungi—I. G. Gulden et al. *O. K. Miller, Jr.,* 445
Circumpolar Health. R. Fortuine, 448
Dating Methods of Pleistocene Deposits and Their Problems. N. W. Rutter. *R. C. Walter,* 240–241
Ecologie des Milieux Montagnards et de Haute Altitude. J. J. Lazare et al. *V. Markgraf,* 123–124
Environments and Extinctions: Man in Late Glacial North America. J. I. Mead and D. J. Meltzer. V. Markgraf, 446–447
The Genesis and Classification of Cold Soils. S. Rieger. *S. F. Burns,* 440
Geomorphology. R. J. Chorley. *N. Caine,* 353–354
Integrated Mountain Development. T. V. Singh and J. Kaur. *L. W. Price,* 244–245
The Island of South Georgia. R. Headland. *T. V. Callaghan,* 442–444
Lake Cainozoic Palaeoclimates of the Southern Hemisphere. J. C. Vogel. *V. Markgraf,* 444–445
Late Pleistocene History of Northeastern New England and Adjacent Canada. H. W. Borns et al. *P. T. Davis,* 440–442
The Living Tundra. Yu. I. Chernov. *W. D. Billings,* 239
Man and His Thermal Environment. R. R. Clark and O. G. Edholm. *D. M. Gates,* 445–446
McMurdo Sound Area, Antarctica (Map). *D. Molenaar,* 247
Methods of Computing Sedimentation in Lakes and Reservoirs. S. Bruk. *E. Leonard,* 246–247
Milankovitch and Climate. A. Berger et al. *J. T. Hollin,* 124–125
New Evidence for the Pleistocene Peopling of the Americas. A. L. Bryan. *V. Markgraf,* 446–447
Northern Ecology and Resource Management. R. Olson et al. *D. A. Walker,* 127–128
Old Man Mountain: A Vision Quest Site in the Colorado High Country. J. B. Benedict. *L. Loendorf,* 242–243
On Skis to the North Pole. V. Snegiryev. *R. M. Koerner,* 354–355
Paleoclimatic Research and Models. A. Ghazi. *J. T. Hollin,* 124–125
Physiological Ecology of North American Plant Communities. B. F. Chabot and H. A. Mooney. *L. L. Tieszen,* 353
Quaternary Environments: Eastern Canadian Arctic, Baffin Bay and Western Greenland. J. T. Andrews. *R. Gilbert,* 239–240
Quaternary Geology of Lake Zurich. K. J. Hsu and K. R. Kelts. *J. T. Andrews,* 246
The Quaternary of Scotland. J. M. Gray and C. K. Ballantyne. *J. B. MacPherson,* 126–127
Shackleton. R. Huntford. *A. G. E. Jones,* 243
Soil Micromorphology and the Quaternary. R. A. Kemp. *S. L. Forman,* 447–448
Südamerika, Geomorphologie und Paläoökologie des Jüngeren Quartärs. K. Garleff and H. Stingl. *V. Markgraf,* 447
Timberline: Mountain and Arctic Frontiers. S. F. Arno. *D. Shankman,* 123
Unveiling the Arctic. L. Rey, 448

Winter Ecology of Small Mammals. J. F. Merritt. *J. Halfpenny, 243–244*
Boulton, G. S. *See* Riezebos, P. A., et al.
Bowen ratio, 195–200
Broadbent, N. D. and Bergqvist, K. I. (Lichen chronology and archaeological features on raised beaches: preliminary results from the Swedish North Bothnian coastal region), 297–306

Calcarius lapponicus, 415–427
Calcretes, 377–387
Calkin, P. E. *See* Haworth, L. A., et al.
Canada: Baffin Island, 33–43, 45–56, 361–376; Ellesmere Island, 181–187, 297–306; Subarctic peatlands, 189–193
Capelin, 439
Carbon dioxide evolution, 189–193
Carrara, P. E., Short, S. K., and Wilcox, R. E. (Deglaciation of the mountainous region of northwestern Montana, U.S.A., as indicated by late Pleistocene ash), 317–325
Castel, I. I. Y. *See* Riezebos, P. E., et al.
Caucasus: Plant ecology, 121–122
Chapin, F. S., III. *See* Shaver, G. R. and Chapin, F. S., III
Charpentier, G. *See* Aubin, A., et al.
Chile: Glacier variations, 307–316
Climate: Alaska, 57–72; Colorado Front Range, 83–96, 97–110, 277–288; Patagonia, 307–316
Climate subsystem, 133–146
Climatic change: Ellesmere Island, 217–222
Colorado: Alpine blowing snow, 147–161; Alpine soil bacteria, 269–275; Front Range: acid precipitation, 269–275; dendroecology, 277–288; ecosystems, 97–110; geosystem model, 133–146; radiation balance, 163–169; rock glacier survey, 349–352
Colpodes, 253–257
Cook, J. D. *See* Harris, C. and Cook, J. D.
Copper-rich soils, 73–82
Crawford, R. L. and Edwards, J. S. (Ballooning spiders as a component of arthropod fallout on snowfields of Mount Rainier, Washington, U.S.A.), 429–437
Custer, T. W., Osborn, R. G., Pitelka, F. A., and Gessaman, J. A. (Energy budget and prey requirements of breeding Lapland longspurs near Barrow, Alaska, U.S.A.), 415–427

Deglaciation: Montana, 317–325
Degradation processes, 1–17
Dendroecology, 277–288
Dijkmans, J. W. A., Koster, E. A., Galloway, J. P., and Mook, W. F. (Characteristics and origin of calcretes in a subarctic environment, Great Kobuk Sand Dunes, northwestern Alaska, U.S.A.), 377–387
Disturbance: Permafrost terrain response, 1–17
Dowdeswell, J. A. (The distribution and character of sediments in a tidewater glacier, southern Baffin Island, N.W.T., Canada), 45–46
Draper, B. A. *See* Watts, P. D. and Draper, B. A.
Dunefield, 377–387
Duststorms: Iceland, 223–234

Ecology: Alpine geosystem model, 133–146; Alpine mammals, 111–119; Alpine vegetation, 121–122; Andean insects, 253–257; Forest history, 277–288; High-altitude legumes, 171–179; High-arctic sedge meadows, 181–187; Tussock tundra, 261–268; *Viscaria alpina,* 73–82
Edwards, J. S. *See* Crawford, R. L. and Edwards, J. S.
Ellis, J. M. *See* Haworth, L. A., et al.
Energy budgets: Snowfield, 163–169
England, J. (A paleoglaciation level for north-central Ellesmere Island, N.W.T., Canada), 217–222
Enomoto, H. *See* Aniya, M. and Enomoto, H.
Eolian geomorphology, 377–387, 387–396
Equilibrium-line altitude, 217–222
Evaporation, 195–200

Fahey, B. D. (Weathering pit development in the central Otago Mountains of southern New Zealand), 337–348
Fens, 189–193
Fertilizer effects on tussock tundra, 261–268
Fiord sediments, 361–376
Fire history: Front Range, Colorado, 277–288
Forest history: Front Range, Colorado, 277–288
French, N. R. (Hierarchical conceptual model of the alpine geosystem), 133–146
Frost weathering, 27–32, 337–348

Galloway, J. P. *See* Dijkmans, J. W. A., et al.
Geomorphology: Eolian, 377–387; Glacier-pushed ridges, 387–396
Geomorphology subsystem, 133–146
Gessaman, J. A. *See* Custer, T. W., et al.
Glacial chronology, 307–316, 317–325
Glacial deposits: Soil development, 33–43
Glaciation level: Ellesmere Island, 217–222; Greenland, 407–414; Mapping, 407–414
Glaciers: Ice shelf growth, 397–405; Patagonia Icefield, 307–316
Glaciology: Ice shelf morphology, 397–405
Glaciomarine sediments, 45–56
Greenland: Glaciation level maps, 407–414; Plants, 73–82
Growth forms in tussock tundra, 261–268

Habitat use, 111–119
Hallet, B. *See* Walder, J. S. and Hallet, B.
Harris, C. and Cook, J. D. (The detection of high altitude permafrost in Jotunheimen, Norway, using seismic refraction techniques: an assessment), 19–26
Haworth, L. A., Calkin, P. E., and Ellis, J. M. (Direct measurement of lichen growth in the central Brooks Range, Alaska, U.S.A., and its application to lichenometrical dating), 289–296
Hart, J. *See* Riezebos, P. E., et al.
Heatflux, 195–200
Hemiarctic: Aquatic habitats, 235–238
Henry, G. H. R. and Svoboda, J. (Dinitrogen fixation [Acetylene reduction] in high arctic sedge meadow communities), 181–187
Herbaceous communities, 97–110
Hierarchical model, 133–146
Holocene: Calcretes, 377–387; Climate, 57–72; Core chronologies, 361–376; Deposits, 289–296; Svalbard, 387–396
Humlum, O. (Mapping of glaciation levels: comments on the effect of sampling area size), 407–414
Hydrology-geochemistry subsystem, 133–146

Ice basal debris, 45–56
Ice shelf morphology, 397–405
Iceland: Meteorology, 223–234
Isard, S. A. (Factors influencing soil moisture and plant community distributions on Niwot Ridge, Front Range, Colorado, U.S.A.), 83–96
Innes, J. L. (Influence of sampling design on lichen size-frequency distribution and its effect on derived lichenometric indices), 201–208

Innes, J. L. (The use of percentage cover measurements in lichenometric dating), 209–216
Insect: Attacks on forests, 277–288; Tolerance, 253–257

Jeffries, M. O. (Glaciers and the morphology and structure of Milne Ice Shelf, Ellesmere Island, N.W.T., Canada), 397–405
Johnson, D. A. and Rumbaugh, M. D. (Field nodulation and acetylene reduction activity of high-altitude legumes in the western United States), 171–179

Kienast, F. and Schweingruber, F. H. (Dendroecological studies in the Front Range, Colorado, U.S.A.), 277–288
Kooiman, M. and Linhart, Y. B. (Structure and change in herbaceous communities of four ecosystems in the Front Range, Colorado, U.S.A.), 97–110
Koster, E. A. *See* Dijkmans, J. W. A., et al.

Lakes: Evaporation, 195–200
Lapland longspur, 415–427
Lawson, D. E. (Response of permafrost terrain to disturbance: a synthesis of observations from northern Alaska), 1–17
Legumes: Acetylene reduction, 171–179
Lichenometry: Dating of archaeological features, 297–306; Growth curve, Brooks Range, 289–296; Percentage cover, 209–216; Sampling design, 201–208
Linhart, Y. B. *See* Kooiman, M. and Linhart, Y. B.
Locke, W. W. (Fine particle translocation in soils developed on glacial deposits, southern Baffin Island, N.W.T., Canada), 33–43
Long-term ecological research, 133–146

Mammals: Habitat use, 111–119
Mancinelli, R. L. (Alpine tundra soil bacterial responses to increased soil loading rates of acid precipitation, nitrate, and sulfate, Front Range, Colorado, U.S.A.), 269–275
Mapping: Problems of scale, 407–414
Mass transport of snow, 147–161
Mellor, A. (Textural and scanning electron microscope observations of some arctic-alpine soils developed in Weichselian and Neoglacial till deposits in southern Norway), 327–336
Meridacris subaptera, 253–257
Meteorology: Iceland, 223–234
Milne Ice Shelf, 397–405
Modeling: Alpine geosystem, 133–134
Montana: Deglaciation, 317–325; Nodulation and acetylene reduction, 171–179
Moore, T. R. (Carbon dioxide evolution from subarctic peatlands in eastern Canada), 189–193
Mook, W. G. *See* Dijkmans, J. W. A., et al.
Moraines: Lichenometry, 201–208, 209–216; Push-moraine, 387–396
Mothersill, J. S. *See* Andrews, J. T., et al.

Nakhutsrishwili, G. *See* Bock, J. H. and Nakhutsrishwili, G.
Netherlands: Eolian geomorphology, 387–396
New Zealand: Weathering pits, 337–348
Nitrate: Effect on alpine soil bacteria, 269–275
Nitrogen fixation, 171–179, 181–187
Nodulation, 171–179
Norway: Jotunheimen, 19–26; Pedogenesis, 327–336; Storbreen glacier foreland, 203–208
Nutrient limitation in tussock tundra, 261–268

Olyphant, G. A. (The components of incoming radiation within a mid-latitude alpine watershed during the snowmelt season), 163–169
Ornithology: Bioenergetics of Lapland longspur, 415–427
Osborn, R. G. *See* Custer, T. W., et al.

Pacific Northwest: Alpine mammals, 111–119
Paleoenvironment: Ellesmere Island, 217–222; Montana, 317–325
Paleoenvironmental studies, 57–72
Paleoglaciation level, 217–222
Paleomagnetic records, 361–376
Palynology: Alaska, 57–72
Patagonia: Glacier variations, 307–316
Peatlands: Carbon dioxide evolution, 189–193
Percentage cover measurements in lichenometry, 209–216
Periglacial environment, 337–348
Periglacial phenomena, 27–32
Permafrost: Detection, 19–26; Response to disturbance, 1–17
Permafrost region, 195–200
Petersen, P. M. and Philipp, M. (Growth and reproduction of *Viscaria alpina* on Greenland soils with high and low copper concentrations), 73–82
Philipp, M. *See* Petersen, P. M. and Philipp, M.
Physiological-behavioral subsystem, 133–146
Pitelka, F. A. *See* Custer, T. W., et al.
Plant community structure, 97–110
Plant morphology: Greenland, 73–82
Pleistocene volcanic ash, 317–325
Pollen rain: Alaska, 57–72
Pools: Bacterial communities, 235–238
Priestley-Taylor model, 195–200
Process modeling, 133–146
Production in tussock tundra, 261–268
Production-decomposition subsystem, 133–146

Quaternary sediments, 361–376
Quinn, I. *See* Riezebos, P. A., et al.

Radiation balance, 163–169
Radiodensitometry, 277–288
Reclamation, 178
Recovery in permafrost terrain, 1–17
Reichel, J. D. (Habitat use by alpine mammals in the Pacific Northwest, U.S.A.), 111–119
Rhizocarpon: Lichenometric studies, 201–208, 209–216, 289–296, 297–306
Riezebos, P. A., Boulton, G. S., van der Meer, J. J. M., Ruegg, G. H. J., Beets, D. J., Castel, I. I. Y., Hart, J., Quinn, I., Thornton, M., and van der Wateren, F. M. (Products and effects of modern eolian activity on a nineteenth-century glacier-pushed ridge in West Spitsbergen, Svalbard), 389–396
Rock glacier survey, 349–352
Roulet, N. T. and Woo, M.-K. (Wetland and lake evaporation in the Low Arctic), 195–200
Ruegg, G. H. J. *See* Riezebos, P. A., et al.
Rumbaugh, M. D. *See* Johnson, D. A. and Rumbaugh, M. D.

Sampling design, 201–208
Sanville, D. *See* Benedict, J. B., et al.
Scanning electron microscopy, 327–336
Schweingruber, F. H. *See* Kienast, F. and Schweingruber, F. H.
Secular variations, 361–376
Sedimentology of Arctic Fiords Experiment, 361–376
Sediments: Tidewater glacier, 45–56

Seismic refraction techniques, 19–26
Shaver, G. R. and Chapin, F. S., III (Effect of fertilizer on production and biomass of tussock tundra, Alaska, U.S.A.), 261–268
Shore displacement of Bothnian coast, 297–306
Short, S. K., Andrews, J. T., and Webber, P. J. (Pollen, vegetation, and climate relationship along the Dalton Highway, Alaska, U.S.A.: a basis for Holocene paleoecological and paleoclimatic studies), 57–72

Greg A. Olyphant	163–169	The Components of Incoming Radiation within a Mid-latitude Alpine Watershed during the Snowmelt Season
D. A. Johnson and M. D. Rumbaugh	171–179	Field Nodulation and Acetylene Reduction Activity of High-altitude Legumes in the Western United States
Greg H. R. Henry and Josef Svoboda	181–187	Dinitrogen Fixation (Acetylene Reduction) in High Arctic Sedge Meadow Communities
T. R. Moore	189–193	Carbon Dioxide Evolution from Subarctic Peatlands in Eastern Canada
Nigel T. Roulet and Ming-ko Woo	195–200	Wetland and Lake Evaporation in the Low Arctic
John L. Innes	201–208	Influence of Sampling Design on Lichen Size-Frequency Distributions and Its Effect on Derived Lichenometric Indices
John L. Innes	209–216	The Use of Percentage Cover Measurements in Lichenometric Dating
John England	217–222	A Paleoglaciation Level for North-central Ellesmere Island, N.W.T., Canada
Ian Y. Ashwell	223–234	Meteorology and Duststorms in Central Iceland
Antoine Aubin, Jacques Boisvert, and Guy Charpentier	235–238	Bacterial Communities in Shallow Aquatic Habitats of Poste-de-la-Baleine (Kuujjuarapik) Region, Quebec, Canada
Book Reviews	239–247	
List of Critical Reviewers	248	
Lauritz Sømme	253–257	Tolerance to Low Temperatures and Desiccation in Insects from Andean Paramos
G. R. Shaver and F. S. Chapin III	261–268	Effect of Fertilizer on Production and Biomass of Tussock Tundra, Alaska, U.S.A.
Rocco L. Mancinelli	269–275	Alpine Tundra Soil Bacterial Responses to Increased Soil Loading Rates of Acid Precipitation, Nitrate, and Sulfate, Front Range, Colorado, U.S.A.
Felix Kienast and Fritz Hans Schweingruber	277–288	Dendroecological Studies in the Front Range, Colorado, U.S.A.
Leah A. Haworth, Parker E. Calkin, and James M. Ellis	289–296	Direct Measurement of Lichen Growth in the Central Brooks Range, Alaska, U.S.A., and Its Application to Lichenometric Dating
N. D. Broadbent and K. I. Bergqvist	297–306	Lichenometric Chronology and Archaeological Features on Raised Beaches: Preliminary Results from the Swedish North Bothnian Coastal Region
Masamu Aniya and Hiroyuki Enomoto	307–316	Glacier Variations and Their Causes in the Northern Patagonia Icefield, Chile, since 1944

Paul E. Carrara, Susan K. Short, and Ray E. Wilcox	317–325	Deglaciation of the Mountainous Region of Northwestern Montana, U.S.A., as Indicated by Late Pleistocene Ash
A. Mellor	327–336	Textural and Scanning Electron Microscope Observations of Some Arctic-alpine Soils Developed in Weichselian and Neoglacial Till Deposits in Southern Norway
Barry D. Fahey	337–348	Weathering Pit Development in the Central Otago Mountains of Southern New Zealand
James B. Benedict, Robert J. Benedict, and Doug Sanville	349–352	Arapaho Rock Glacier, Front Range, Colorado, U.S.A.: A 25-Year Resurvey
Book Reviews	353–355	*Physiological Ecology of North American Plant Communities.* Edited by B. F. Chabot and H. A. Mooney
		Geomorphology. By Richard J. Chorley, Stanley A. Schumm, and David E. Sugden
		On Skis to the North Pole. By Vladimir Snegirynev
Conference Notices	356	
John T. Andrews, John S. Mothersill, and A. R. Tabrez	361–376	Paleomagnetic Record, Texture, and Mineralogy of Late Quaternary Sediments, Baffin Island Fiords, N.W.T., Canada
Jos W. A. Dijkmans and Eduard A. Koster	377–387	Characteristics and Origin of Calcretes in a Subarctic Environment, Great Kobuk Sand Dunes, Northwestern Alaska, U.S.A.
P. A. Riezebos, G. S. Boulton, J. J. M. van der Meer, G. H. J. Ruegg, D. J. Beets, I. I. Y. Castel, J. Hart, I. Quinn, M. Thornton, and F. M. van der Wateren	389–396	Products and Effects of Modern Eolian Activity on a Nineteenth-century Glacier-pushed Ridge in West Spitsbergen, Svalbard
Martin O. Jeffries	397–405	Glaciers and the Morphology and Structure of Milne Ice Shelf, Ellesmere Island, N.W.T., Canada
Ole Humlum	407–414	Mapping of Glaciation Levels: Comments on the Effect of Sampling Area Size
Thomas W. Custer, Ronald G. Osborn, Frank A. Pitelka, and James A. Gessaman	415–427	Energy Budget and Prey Requirements of Breeding Lapland Longspurs near Barrow, Alaska, U.S.A.
Rodney L. Crawford and John S. Edwards	429–437	Ballooning Spiders as a Component of Arthropod Fallout on Snowfields of Mount Rainier, Washington, U.S.A.
P. D. Watts and B. A. Draper	439	Note of the Behavior of Beluga Whales Feeding on Capelin
Book Reviews	440–448	*The Genesis and Classification of Cold Soils.* By Samuel Rieger
		Late Pleistocene History of Northeastern New England and Adjacent Canada. Edited by Harold W. Borns, Jr., Pierre LaSalle, and Woodrow B. Thompson
		The Island of South Georgia. By Robert Headland
		Late Cainozoic Palaeoclimates of the Southern Hemisphere. Edited by J. C. Vogel

Arctic and Alpine Fungi-I. By Gro Gulden, Kolbjørn Mohn Jenssen, and Jens Stordal

Man and His Thermal Environment. By R. P. Clark and O. G. Edholm

Environments and Extinctions: Man in Late Glacial North America. Edited by Jim I. Mead and David J. Meltzer

New Evidence for the Pleistocene Peopling of the Americas. Edited by A. L. Bryan

Südamerika, Geomorphologie und Paläoökologie des Jüngeren Quartärs. Edited by K. Garleff and H. Stingl

Soil Micromorphology and the Quaternary. By R. A. Kemp

Unveiling the Arctic. Edited by Louis Rey

Circumpolar Health. Edited by Robert Fortuine

Contents and Index for Volume 18, 1986 449–456
